

Body.

Soul.

Ellis treats women...body and soul.

Your body doesn't make the appointment...you do. So when you get there, you want to be treated like a person.

That's what happens at Ellis. We specialize in treating, not just women's health, but women. And we cover a broad range of women's concerns. To name just a few:

- Breast health (including mammography)
- Menopause
- Osteoporosis
- Postpartum depression
- Heart care (because more women die from heart disease than breast cancer)

Our patients will tell you.

"Thank you for a wonderful experience. I was nervous and scared and you took it all away." —Brenda

"Hats off to all in this department. Anyone would be at ease here." —Anonymous

"Thanks on behalf of all women for such special attention." —Susan

When you're dealing with your health, settle for nothing less than the best.

Go to Ellis Hospital.

1101 Nott Street
Schenectady, NY 12308

THE BEST PLACE TO GET BETTER.

Life.

Life Preserver.

It's what we do at Ellis.

You value your health. So do we. That's why we do everything we can to preserve life: from caring for you when you're sick to guiding you toward a healthy lifestyle.

It's what you'd expect from a major regional healthcare center that's just a quick, easy drive from anywhere in the Capital Region.

And we do it very well...

...across the spectrum of healthcare:

- Recognized as one of the nation's 100 hospitals for cardiac care and ICU
- One of the only Comprehensive Stroke Centers in upstate New York
- A cancer care unit nationally recognized by The American College of Surgeons' Commission on Cancer
- Consistently top-rated by the NYS Health Department for heart bypass surgery
- An ER in the 99th percentile of hospitals nationwide for patient satisfaction

When you're dealing with your health, settle for nothing less than the best.
